

Paul Shryock

Web Designer, Front End Developer

Talented graphic designer with web development know-how and experience. Professional and timely execution of branding, print collateral, WordPress project management and development, digital security and SEO best practices.

Select Work Experience

- 12/2015 – present **Graphic Designer—OSG Billing Services** (Ridgefield Park, NJ)
I design and produce graphic materials to meet expected standards and deadlines. I manage and maintain corporate web sites, including design and content updates aligning with brand intent and corporate visual identity. I apply industry best practices for design, user interface, user experience and navigation. I also assist in the on-going department workflow, managing work efficiency, project timeliness and addressing potential problems.
- 07/2014 – 12/2015 **Web Designer, Marketing Specialist—Kaast** (Ardmore, PA—remotely)
Designed and developed all web and print marketing materials. Redesigned and coded many aspects of their website and landing pages. Wrote SEO-friendly blog and press release content and ran social media. Designed 160-page product catalog.
- 07/2012 – 07/2014 **Graphic Designer—Spirit Media Group** (Chester, PA)
Page layout, advertisement design, website design, etc..
- 02/2013 – 02/2014 **Graphic Designer—Sports Reports Press** (Mobile, AL—remotely)
Page layout, photo retouching, advertisement design, etc.

Online training: JavaScript, Ajax, REST API, WordPress
Learning about front end development, PHP and WordPress.
- 2013–2016 **Treehouse**
Online training: Web design, WordPress, SEO
Learned about front end development, PHP, SEO and WordPress.
- 2008–2011 **Delaware County Community College**
Associate's degree with honors: Graphic design
Learned to draw and paint, mastered Adobe suite, and learned typography, layout and print design. Interned for campus newspaper as graphic designer.

Professional Statement

I have 7+ years experience designing and developing for the web and print. My work helps people solve problems and reach business goals. I write clean, semantic and well-commented code, and I like to have fun while doing it. I'm easy to get along with, and I always finish on time. I'm seeking full-time work on a team where creativity and hard work will go far, and where people enjoy working with each other.
